

# Exhaust Servo Eliminator

## ESE-\*

### Installation Manual

#### Installation

*Disclaimer: Do not attempt to install the product if you don't have basic mechanical skills. HealTech Electronics Ltd. and its distributors shall not be liable for any loss or damage caused by improper installation.*

1. Locate the stock exhaust servo motor.
2. Unplug the connector and remove the servo motor.
3. If you still have the servo cables on the bike, remove it to further reduce weight.
4. Plug the ESE module into the wiring harness connector.
5. Peel off the green plastic from the back of the unit and mount it. Secure the cable with the cable tie supplied.

#### Warranty

The unit is completely sealed and epoxy encapsulated, which gives extreme protection for the internal parts from shocks, vibrations and water.

To ensure trouble-free operation from the start, all units have been extensively tested prior to shipment.

Our dealers are offering a 30-day money-back guarantee on HealTech products, thus you will get your money back if the product does not fulfill your expectations (all parts must be returned in original condition for full refund).

Furthermore the product is covered by our 2-year replacement warranty from the date of purchase.
