CARE AND CLEANING

The best way to keep your American Kargo bag looking fresh and clean is with water. That's right, your AK bag requires almost no maintenance, other than periodic cleaning with water. If you discovered a way to get your bag so dirty that water alone isn't going to cut it, you can scrub the bag with a soft brush, mild soap and water to remove any dirt or

residue. We do not recommend the use of harsh solvents or chemicals to clean your bag as they can break down the materials in your bag and leave it faded. Once your bag is clean don't be tempted to place it in a dryer. Dryers can damage the protective coatings on your bag so we recommend that you hang it up to air dry.
