- Remove Rider and Rear Seats.
- Remove right side rear body work by removing (4) push clips and (1) Phillips screw.
- Disconnect license plate light wire.
- Remove factory fender by removing (4) 6MM hex flange bolts from under tail.
- Mount the "VORTEX Fender Eliminator Kit" by loosely installing the (4) supplied 6mm bolts and 6X15mm washers. (Do not tighten at this time)
- Mount plate bracket using (2) supplied 6mm button head bolts, (2) 6X12mm washers and locknuts.
- Center plate and brackets to tail section and tighten the (2) 6mm plate brackets bolts and (4) 6mm mounting bracket bolts.
- Connect License Plate light (not included) wire and check for proper function.
- Reinstall body work.
- Remaining hardware to be used for mounting license plate.

Use blue thread lock to secure bolts. Refer to owner's manual for proper torques.
