Kawasaki ZX6 (98-04), ZX9 (98-04) Rearset Instruction Sheet – Racing Use Only

Thank you for selecting CFMOTORSPORTS rearsets. The components you have just purchased for your motorcycle are designed to improve the ground clearance, crash worthiness and overall good looks of your motorcycle. Please note that these components are intended and approved for **racing use only**. As such, the footpegs are solid-mount and provisions for brake light switches and brake pedal return springs are not provided.

- 1) Remove stock footpeg brackets and detach all levers and associated hardware.
- 2) Attach your desired brake lever (CFM or OEM) and footpeg to the RHS bracket. Be sure to lubricate the lever surface with a high quality waterproof grease. Attach the bracket to the frame and the master cylinder to the bracket using the OEM hardware. Adjust the pedal height for your comfort using the OEM adjuster on the master cylinder bottom clevice. Be sure to secure all nuts/bolts with RED PERMANENT LOCTITE.
- 3) Attach the left footpeg and shift lever (CFM or OEM) using the supplied hardware. Be sure to lubricate the lever surface with a high quality waterproof grease (be sure to keep this surface well greased during regular maintenance checks). Bolt the shifter side assembly to the frame using the OEM hardware. Secure all nuts/bolts with RED PERMANENT LOCTITE.
- 4) Install the CFM extended shift rod and lock the rod in place using the OEM lock nuts. For the best shifting results, position the gear change actuator (the part attached to the motor) so that it is oriented 90 degrees to the shift rod.
- 5) Check all moving parts to ensure that they rotate freely.

Thanks again for choosing CFM. For any questions or replacement parts, please call your local CFM supplier or our main office number listed above.

BE SURE THAT ALL COMPONENTS OPERATE AND RETURN FREELY BEFORE USE

If you have any questions regarding installation, please feel free to contact us.

IMPORTANT

Installation and use of this product will change the response of the motorcycle to rider control inputs. Failure of the rider to adapt to these changes may result in a loss of control, and serious injury or death. Improper installation and/or failure to comply with all warnings and instructions may cause a loss of control and serious injury or death. **DO NOT INSTALL OR USE THIS PRODUCT IF YOU ARE UNABLE TO DO SO IN COMPLIANCE WITH ALL INSTRUCTIONS AND WARNINGS. SEEK THE ASSISTANCE OF A TRAINED PROFESSIONAL TECHNICIAN.** Installation of this product releases the Woodcraft Technologies, Inc. from all liabilities as to the use of this product. The user recognizes that any alteration or modification to any motorcycle may increase the risk of injury or accident and may also render the motorcycle illegal for public road use
